4. According to source, Radio Ruegen is under the Main Administration. The Main Administration is also responsible for the construction and operation of jamming stations in East Germany which operate against Western radio stations. It is alleged that a jamming station is located in Berlin-Koepenick and that a new jamming station is under construction in Leipzig-Wiederau. A radio monitoring station is under construction in the vicinity of Rostock and a second monitoring station located on the Brocken is already in operation. These stations are responsible for investigating and monitoring illegal radio connections between East Germany and the West.
